

SimpliciT™ ETL

Flexible B2B EDI translation software that adapts to your business. Create custom mappings with our LLM-assisted engine, automate document exchange, and integrate seamlessly with your ERP, trading partners, and existing business processes. Deploy on-premises or let our experts manage it for you.

KEY BENEFITS

- ✓ Flexible deployment: install on-premises or let Acclimate manage it
- ✓ LLM-assisted EDI mapping (95% first-pass accuracy, 8x faster)
- ✓ Built-in ERP integration with off-the-shelf and custom systems
- ✓ Supports all file types: X12, EDIFACT, CSV, XML, APIs, flat files
- ✓ Up to 75% faster partner onboarding
- ✓ 25-50% cost savings with managed service option
- ✓ 99.99% uptime (managed) or self-monitored (on-premises)
- ✓ Optional 24x7x365 US-based expert support
- ✓ Trusted by mid-sized and global companies in 12+ industries

THE CHALLENGE

Companies need to connect their ERP to dozens or hundreds of trading partners, each with their own data formats, requirements, and timelines. Building these integrations in-house is expensive and slow. Traditional EDI tools force your team to handle custom mapping, testing, and troubleshooting on their own. Manual data entry creates errors, slow onboarding delays revenue, and rigid systems can't keep up as partner requirements change.

THE SOLUTION

SimpliciT™ ETL is a flexible EDI translation platform with a custom mapping process that enables easy, end-to-end EDI integration with your existing ERP systems and business processes. Deploy on-premises or leverage our managed service; either way, you get the same LLM-assisted mapping engine, drag-and-drop element mapping, and full support for X12, EDIFACT, CSV, XML, APIs, and flat files. Works with any VAN and any business system.

HOW IT WORKS

- 1. Connect** — Your ERP or business system plugs into SimpliciT™ through pre-built integrations or custom code support.
- 2. Translate** — Our LLM-assisted engine maps your data 8x faster with 95% first-pass accuracy, then specialists validate every result.
- 3. Exchange** — Documents flow securely to your partners across any major protocol, monitored 24x7x365 by US-based experts.

DESIGNED FOR FLEXIBILITY: SIMPLICIT™ VS. TYPICAL EDI/MIDDLEWARE TOOLS

Feature	SimpliciT™	Typical EDI/Middleware Tools
Integration Complexity	Lower. We handle custom mapping and implementation support.	Higher. Your team usually must handle mappings, testing, and troubleshooting.
Implementation & Onboarding Speed	Faster. Built-in ERP integration + LLM-assisted mapping + specialist onboarding cuts implementation time.	Slower. Custom development, testing, and partner-specific projects take months.
Custom ERP Compatibility	Strong. Works with off-the-shelf ERP systems and custom code.	Weak. ERP work often requires connectors, custom development, or vendor-specific work.
Support & Maintenance	Strong. Choose managed service with 24x7x365 US-based support, or self-managed with expert help available.	Weak. Usually ticket-based, self-managed, or partner-dependent.
File Support	All file types: Flat file, CSV, XML, API, fixed format, and standard EDI documents.	Often strong for EDI standards, but broader formats may require additional tooling.
ROI Profile	Better: increased supply chain velocity + massive internal labor savings.	Underdelivers due to slower support. Strong only with existing internal integration capacity.

WHY ACCLIMATE

Solution-Oriented

Operating since 2004 with deep specialization in EDI and supply chain integration.

Bespoke Approach

We solve your specific integration challenges instead of forcing a one-size-fits-all template.

One Expert Away

Average 25+ years of practical experience per team member, ready to solve any integration challenge.

Growth Partner

Built to scale with your transaction volume and partner count, not against it.

ABOUT ACCLIMATE

Acclimate Technologies helps companies **Get Integrated, Get Automated, and Get Empowered**. For 22+ years, we've added resilience to the value chain through integration, business process automation, and managed business solutions. We deliver Clarity, Reliability, and Partnership to mid-sized and global companies across 6 industry solutions because we know your data matters.
