

Tressel™

Honda Bluebook Certified shipping software for order fulfillment automation. Barcode-driven workflows that improve accuracy, reduce manual steps, and streamline shipping document generation.

KEY BENEFITS

- ✓ Honda Bluebook Certified for strict OEM standards
- ✓ Bar-coded label printing for containers, pallets, and addresses
- ✓ Scan-to-Build staging for faster shipment configuration
- ✓ Automated EDI document exchange (862, 850, 856)
- ✓ Serialization and lot number tracking for full traceability
- ✓ ERP integration with real-time shipping updates
- ✓ Cloud-based service with 99.99% uptime and 24x7x365 support
- ✓ Trusted across 12+ industries including automotive, manufacturing, steel, and metals

THE CHALLENGE

Order fulfillment is complex. It involves multiple sub-processes (receipt, acceptance, manufacturing, packaging, shipping), multiple documents (advanced shipping notices, bills of lading, proforma invoices, packing slips, and labels), and lots of data to reconcile (units ordered versus built versus packed versus shipped versus invoiced). When any link breaks, you get late shipments, chargebacks, and unhappy customers. Streamlining and automating this workflow provides significant paybacks in both cost savings and customer satisfaction.

THE SOLUTION

Tressel™ is Honda Bluebook Certified shipping software that streamlines packing, shipping, and document generation with barcode-driven workflow automation. Originally built for a major automotive manufacturer to manage supplier interactions, Tressel now serves manufacturers across 12+ industries, including automotive, steel, metals, and general manufacturing. Its customizable, flexible workflow doesn't force you to conform to someone else's process. You define a process consistent with your own way of working.

HOW IT WORKS

- 1. Select Demands** — Choose the orders that need to ship from the Demands screen.
- 2. Create Shipment** — Confirm quantities and generate a shipment number.
- 3. Stage the Load** — Use standard pallet workflow or Scan-to-Build based on customer requirements.
- 4. Print Labels** — Print pallet and master labels after staging is complete.
- 5. Finalize & Send** — Review the ASN, add required details, and send it to the customer system.

KEY FEATURES

Smart Barcoding & Labels

Bar-coded label printing for containers, mixed and master pallets, quick receive, batch delivery, and addresses. Includes label serialization (smart numbers) and part number cross-referencing.

Automated EDI Exchange

Automated electronic document exchange for EDI 862, 850, and 856. Full ASN tracking, acknowledgment monitoring, and problem reporting.

Serialization & Lot Tracking

Item-level tracking for accurate shipment records. Trace products through each stage of fulfillment for quality control and recall support.

Scan-to-Build Staging

Build orders in real time by scanning serialized tags from items being packed. Add multiple pallets and assign containers with full flexibility.

ERP Integration

Pulls demand data from your ERP to guide shipping actions. Keeps shipping updates connected to your core business systems and aligned with daily operations.

Cloud-Based with 24x7x365 Support

No infrastructure burden. Fully managed by Acclimate with 99.99% product uptime and around-the-clock expert support.

WHY ACCLIMATE

■ Solution-Oriented

Operating since 2004 with deep specialization in shipping automation, EDI, and manufacturing workflows.

■ One Expert Away

Average 25+ years of practical experience per team member, ready to solve any shipping or integration challenge.

■ Bespoke Approach

We solve your specific shipping workflow instead of forcing a one-size-fits-all template.

■ Growth Partner

Built to scale with your shipment volume, not against it.

ABOUT ACCLIMATE

Acclimate Technologies helps companies **Get Integrated, Get Automated, and Get Empowered**. For 22+ years, we've added resilience to the value chain through integration, business process automation, and managed business solutions. We deliver Clarity, Reliability, and Partnership to mid-sized and global companies across 6 industry solutions because we know your data matters.
